Serial No. 10/527406 U008 0632/GSO

## Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

## **Listing of Claims**:

- 1. (Previously presented) A stent comprising:
- (a) substrate; and
- (b) calcium phosphate coating on the substrate, wherein said coating has a thickness of no more than  $1 \mu m$ .
- 2. (Previously presented) A stent as claimed in claim 1 wherein the calcium phosphate coating comprises hydroxyapatite.
- 3. (Previously presented) A stent as claimed in claim 1 wherein the thickness of the calcium phosphate coating is between about 0.01  $\mu m$  to 1  $\mu m$ .
- 4. (Previously presented) A stent as claimed in claim 1 wherein the thickness of the calcium phosphate coating is between about  $0.1 \mu m$  to  $1 \mu m$ .
- 5. (Previously presented) A stent as claimed in claim 1 wherein the tensile bond strength between the substrate and the calcium phosphate coating is greater than about 20 MPa.
  - 6. (Cancelled)
- 7. (Previously presented) A stent as claimed in claim 1 wherein the coating covers about 20% to about 99% of the surface of the substrate.
- 8. (Previously presented) A stent as claimed in claim 1 wherein the substrate comprises a metal or metal alloy selected from stainless steel, cobalt alloy, titanium, cobalt-chromium, cobalt-iron, and cobalt-chromium-nickel-molybdenum-iron.
- 9. (Previously presented) A stent as claimed in claim 1 wherein the calcium phosphate coating is porous and the pores retain and elute a drug.

Serial No. 10/527406 U008 0632/GSO

- 10. (Cancelled)
- 11. (Previously presented) A stent as claimed in claim 9 wherein the substrate has a first calcium phosphate coating and a second calcium phosphate coating and the drug is contained in the first and second coatings.
- 12. (Previously presented) A stent as claimed in claim 9 wherein the drug inhibits restenosis.
- 13. (Previously presented) A stent as claimed in claim 1 wherein the calcium phosphate coating comprises dicalcium phosphate, tricalcium phosphate or tetracalcium phosphate.

## 14-36. (Cancelled)

- 37. (Previously presented) A stent as claimed in claim 1, wherein the tensile bond strength between the substrate and the calcium phosphate coating is greater than about 40 MPa.
- 38. (Previously presented) A stent as claimed in claim 1, wherein the calcium phosphate coating is an electrochemically deposited coating.
- 39. (Withdrawn) A stent as claimed in claim 1, wherein the calcium phosphate coating is an electrophoretically deposited coating.
- 40. (Withdrawn) A stent as claimed in claim 1, wherein the calcium phosphate coating is a sol gel deposited coating.
- 41. (Withdrawn) A stent as claimed in claim 1, wherein the calcium phosphate coating is an aerosol gel deposited coating.
- 42. (Withdrawn) A stent as claimed in claim 1, wherein the calcium phosphate coating is a dip-coated coating.

Serial No. 10/527406 U008 0632/GSO

43. (Withdrawn) A stent as claimed in claim 1, wherein the calcium phosphate coating is a spin-coated coating.

44-59. (Cancelled)
